Mrs. Sharkey pat 6 to Do Her Bit for Jack

By ELEANOR FARLEY, International News Service Special Correspondent

Miami Beach, Fla., Feb. 26.—Can you imagine a rich man's wife getting up every morning at 6 o'clock and reporting for work at half past 7?

Mrs. Jack Sharkey does. Here in Miami there is a regular convention of plain girls. They stay out all night and go to bed at dawn. Nobody gets up before noon, except Jeanie Sharkey.

Since Feb. 1 she has been turning off the alarm at 5:30. She gets up and calls Jack, takes the car out of the garage and drives round town. When she blows the horn Jack comes out.

Then the road work begins. She drives for five miles, with Jack sitting along side her. Then Jack climbs in and takes the wheel. Then they drive home for breakfast.

"Jack likes my coffee better than the coffee," explains his wife. "And you know, I get the biggest kick out of doing things for him."

GETS HIS BREAKFAST

"Hoping him get ready for a fight is a real thrill. He's so sweet about giving me credit for his condition, too. Oh, of course, I know I haven't really much to do with it."

"Then there's his breakfast. When he isn't training we have a regular breakfast. But he doesn't eat bacon and eggs. And Jack loves bread. Muffins or corn cakes. But he won't eat them in shape. He never wants anything but orange juice, toast and coffee."

"He likes to have me get things ready at the table. Then we sit down together, and by the time we're through the children are down. Jack has an hour or so with them before he goes to camp, because he can't get home for luncheon."

7 BILLIONS FOR PUBLIC WORKS

Chicago, Feb. 26 (AP)—Seven billion dollars for public works and construction by utilities and industries will have a tremendous effect on all business activity, in the opinion of Dr. John M. Gies, chief of the public construction division of the Department of Commerce.

Addressing several hundred construction men and engineers, Dr. Gies said that public utilities planned to spend three and one-quarter billions in 1930, while the Federal Government of States shows total expenditures for public works in 1930 in excess of three billions.

The Federal Government program will amount to some \$225,000,000, not including 80 or more millions for highways and bridges. Dr. Gies said, while especially large capital investments were also reported by railroads and several other large industries.

U. S. Fails at Parley; Parity a Fake—Child

By RICHARD WASHBURN, CHILD

Former Ambassador to Italy and Noted Author.

When the American delegation went to the London conference the President asked for no comment from the American people. A strange request in a democracy.

The idea was that we should remain silent while our delegation was dedicated in the end we all wished for the isolation of the burden of the tax burden of armaments—a collection based on parity with Great Britain and perhaps if we were wise, an exchange of our ability to build two ships while the other fellow builds one, in order to have from him our friend, an agreement that if he was in trouble we should have the freedom of the seas—the right to carry on American commerce with any nation which we saw fit to trade with.

What so far has been the result of this conference?

First, instead of any reduction we have to face a fake parity with Great Britain which costs both sides not less—but more.

INTO EUROPEAN POLITICS.

The reason the parity is a fake is that if we equalize the British navy and ours we even about both the British merchant marine in fighting power to move twice our power in speed and gun carriage of ships. Parity is an even, palpable fact.

Second, the result is to enter to the side door—the Lullaby on the transatlantic entanglement of European politics, to guarantee security for France, or to enter the World Alliance, or to enter the League of Nations.

JEWRY LEADERS IN PROTEST

New York, Feb. 26 (AP)—The Jewish community in New York has issued a statement protesting against the proposed legislation to restrict immigration from Eastern Europe.

The statement, issued by the American Jewish Congress, the Jewish Community Center, and the Jewish Welfare Board, says that the proposed legislation is "a direct attack upon the Jewish people and their rights."

The statement also says that the proposed legislation is "a violation of the principles of democracy and of the rights of all people to freedom of movement."

DETROIT BAN ON 748 ALIENS

Detroit, Feb. 26 (AP)—The city council adopted a resolution directing heads of departments to make a clean sweep of the 748 aliens on the city payroll.

A bylaw was filed for addition of a clause that outside the city department chiefs to investigate each case, with a view to employment should then be terminating circumstances.

The resolution was offered as a measure to relieve unemployment.

Most of the aliens on the public payroll are laborers, 42 of them in the street cleaning department.

The public department employs four who have been on the payroll 14 years. It has also seven for years and one who has been with the department 17 years and who was unable to obtain citizenship because of papers lost at Ellis Island.

The Board of Education ordered a survey to determine the number of aliens in the city schools and also how many do not live within the corporate limits of Detroit.

PLANES HUNT 'LOST' FLIERS

Los Angeles, Feb. 26 (AP)—The Air Corps and the California National Guard are hunting for the fate of a Western Air Express transport plane and its crew of three who disappeared Sunday after taking off from Kingman, Ariz., for the Alhambra, Cal.

NEW YORK

Mildred Voss, 9, of Revere screamed when a man tried to force her into an auto as she came out of a drug store and as a woman ran to her aid her attacker fled. (Staff photo.)

"When I went out he followed me but I didn't think anything of that until he grabbed me as I was passing along a sidewalk parked at a lonely place alongside some billboards," he recalled. "As loud as I could, and a woman came up and the man ran. He drove away in minutes. Then a lot of other people came up and they telephoned my mother, who brought me home."

Revere police were impressed by the description given, which tallied closely with that of the Charles town girl's kidnaper. He was between 25 and 30, five feet seven

RASKOB FINDS BUSINESS RECOVERING

JAMES I. RASKOB
International News Staff Correspondent

Palm Beach, Fla., Feb. 25.—Business is improving steadily and by April 1 will be in very satisfactory shape.

John I. Raskob, multi-millionaire capitalist and the man who directed "Al Smith's" campaign in the last presidential election, made this assertion today in an exclusive interview during which he gave his reaction to the Wall Street stock market crash of last fall.

"The panic had come," said Raskob, referring to the stock market crash. "It was a deflation process that was not to go through."

BUSINESS RECOVERING.
"Business has been affected tremendously, but it is recovering quite rapidly. By the first of April business should be in very good shape."

"The panic proves that the political party that controls the market is the one that controls the money," said Raskob. "There is no difference between the inflation of value in land and in the stock market. Both are controlled by the same forces."

Asked if he believed any state would be able to control the money, Raskob replied that the power of the Federal Reserve Bank is the only power that can regulate the New York Stock Exchange.

NO REGULATION NEEDED.
"I think a better thing would be to let the New York Stock Exchange govern the market of stock trading along the lines of setting a price that every one is treated fairly rather than to attempt a regulation of price by law."

Raskob, who has been termed the "maker of millionaires" and who as a trading executive of E. I. du Pont de Nemours and the General Motors Corp. made a fortune for himself, expressed the opinion that opportunities for the coming year of today are greater than ever before.

"There is here a greater amount of capital to work with than ever before," he said. "We have more, better organizations, and better knowledge along lines of material and chemical development. This is an age of unlimited opportunities. For example, there is no radio, a comparatively new field, have more things to work with than did the men who pioneered in railroads 50 years ago."

MELLON BACKS BRANCH BANKS

Washington, Feb. 25 (AP).—Sen. Henry Mellon wrote the House banking committee today that in his opinion branch banking was more than a chain or group bank, Inc., but that even branch banking should be limited to definite economic areas.

"As to what those economic areas should be," said the senator in his letter, "I am not prepared to state at this time without further study or thought."

Mellon was to have appeared to the Senate today in the committee study of the nation's banking system, but he said he would not do so until he had had one conference with the House committee.

"May I add," he wrote, "that I think it fortunate that you committee has the ability to study the situation at the time, and that I am confident that your committee will be able to make a careful and complete study of all the facts."

Brother of Former N. Y. Governor Dead

Albany, N. Y., Feb. 25 (AP).—John J. O'Brien, brother of the late John J. O'Brien, former governor of New York, died after a long illness.

O'Brien had been prominent in Columbia county politics for many years. He was postmaster at Valatie for nine years and was twice a member of the county board of supervisors. He is survived by two sons, Max E. J. O'Brien, of Valatie, and Max E. J. O'Brien, of Albany, and two daughters, Anne J. O'Brien, of Albany, and Phyllis O'Brien, of Valatie.

MORE MILLIONS NEEDED TO PAY CHICAGO HELP

Chicago, Feb. 25 (AP).—Chicago's 12,000 empty-pocketed employees today asked if Saturday would be just Saturday or pay day.

Union men estimated \$27,000,000 pledged as the collectors of the recent fund swing into another day campaign. It was held that the city, county and school board could issue pay checks by the end of the week.

Thirteen more millions are needed before the payroll can be made, Philip H. Clarke, chairman of the collection, and Elias H. Strawn, head of the relief committee, have pointed out that payment cannot begin until \$10,000,000 is pledged toward the \$15,000,000 estimated as necessary for operation until tax collections, delayed by the recent recession, begin trickling in around July 1.

Paras in New York and Detroit have said if they could participate in the various buying, Clarke said, that he refused them the permission to do so as he was determined to show that Chicago's creditworthiness was not as bad as some municipal credit without outside assistance.

Some local disappointments have been met by the \$10,000,000 originally promised by the Loan Building Association.

Boy on Hike Home Injured by Auto

Marlboro, Feb. 25.—Deeried in this city by his chums who had come from Worcester to visit friends, Arthur Gregory, 13 years old, son of Mr. and Mrs. Adolphus Gregory, of 24 Coffey st., Worcester, started to walk 14 miles to his home when he was struck and rendered unconscious by an automobile.

He is at the Marlboro Hospital in serious condition.

According to the story told the police, while Gregory was walking on Lakeville ave. in the outskirts of Marlboro an automobile operated by George E. Gillatt, of this city, struck and knocked the lad down.

When he ran from the right side of the road in the center of the street, he was picked up by Mr. Gillatt and taken to the hospital.

The boy regained consciousness at the hospital to tell Marlboro police officials that he was walking toward his home when injured. He said he and three other boys came to Marlboro, but they left him and when darkness set in he started to walk home. Police say the boy became confused when he saw the Gillatt car approaching him on the lonely road and ran into its path.

Loved... Left...

What Should She Do?

THAT unforgettable day when Tommy had proposed beside the brook, he caught her in his arms, pressed his lips to hers and said—"Helen, we're going to be married, can you believe it?"

And when he had left to take that new position in Wisconsin, he had made her promise that she would join him in a few weeks...

Then came his letters. One every day. Then one a week. And finally...

"Dear Helen—I have realized since I went that it wasn't the real thing..."

She clutched the letter, caught her breath—"Not the real thing!... not real... his love, her love?"

What should she do? Flee from those who might question her? Veil her heartache in the caresses of other men?

Thus does Margaret Widdemer begin the story of galant Helen Heather.

Read this tense, dramatic novel of youth and impulsive love. It begins in *March Good Housekeeping*.

THE AUTHOR TALKS ABOUT HER HEROINE

I had a good time doing this novel, for it is a study of a type which has always interested me: the men and women who laugh so courageously over life that people don't give them credit for anything but laughter. I never felt exactly as if I had created Helen Heather, I felt as if she was there, and all I had to do was tell about her.

NAVY AIRMAN IS KILLED IN WAR GAME

By WILLIAM PARKER

Though it is a game, the war game played by the Navy Air Corps at the Naval Air Station at Pensacola, Fla., has resulted in the death of a young man. The game, which is played by a number of officers and enlisted men, is a simulation of a battle between the Navy and the Army. The game is played on a large map of the United States, and the players use miniature figures to represent the troops. The game is played in a series of rounds, and the players take turns moving their troops. The game is played in a very realistic manner, and the players are very serious about it. Sees Prosperity in Prohibition Repeal

Editor Boston American:

I have read with interest some of your readers' views on prohibition, and I can only say that any repeal of the law is a step in the right direction. I believe that the repeal of prohibition will result in a great increase in the revenue of the government, and I believe that it will also result in a great increase in the health and happiness of the people. I believe that the repeal of prohibition is a necessary step in the progress of our country, and I believe that it is a step that should be taken as soon as possible.

Russia's Holy Synod and Today's Soviet

Editor Boston American:

The Holy Synod of the Russian Orthodox Church has just issued a statement in which it has declared that it is in opposition to the Soviet government. I believe that this statement is a very important one, and I believe that it should be read by all of our readers. I believe that it is a statement that shows the true nature of the Soviet government, and I believe that it is a statement that should be taken into consideration by all of us.

East Melrose Says City Noises Produce Fatigue

Editor Boston American:

There is too much noise in Boston, and it is causing a great deal of fatigue to the people of the city. I believe that the city should take steps to reduce the noise, and I believe that it should do so as soon as possible. I believe that it is a necessary step in the progress of our city, and I believe that it is a step that should be taken as soon as possible.

To CAR OWNERS

who have been driving all winter

1 Your oil thins out quicker in winter.

There is a simple reason why this is so. Each time you use the choke to give a rich starting mixture, a small amount of raw unburned gasoline finds its way into the crankcase—dilutes your oil. Diluted (thinned) oil cannot maintain the protecting film between metal parts—keep them from grinding together. Watch your oil closely in cold weather. Don't let it thin out to the danger point in winter so as to threaten proper lubrication.

2 Fresh oil quiets your motor, cuts down wear.

You can tell the difference at once when you change to fresh Socony lubricants. Your motor will run smoother, will be less noisy—and noise denotes wear. Perhaps you have not noticed that your motor is noisy until you make this change of oil because dilution and its results are so gradual. The danger is there just the same—and you will notice the difference at once when the fresh Socony lubricant is in your car.

3 Flushing is as important in winter as in summer.

Just as much dirt, metal particles and carbon find their way into your lubricating system in winter as in summer. They can be removed only by flushing. Give the inside of your motor a bath with Socony Flushing Oil. Socony dealers and Service Stations make a point of furnishing this very necessary service.

4 Change your oil NOW! Your motor will thank you.

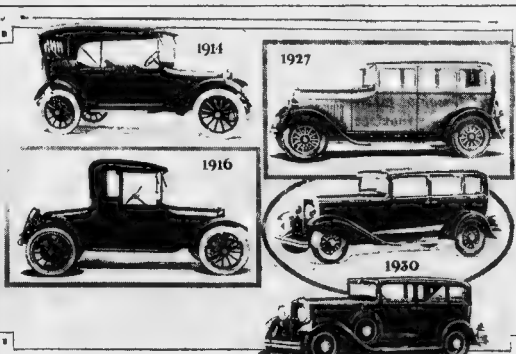

There are several weeks more of winter weather. Be prepared for them by visiting your Socony dealer and Service Station now. Have your old oil drained off—your crankcase flushed—and refill with the Socony lubricant which has the proper body to give you the best lubrication at varying temperatures. Then you may know that there is no needless wear—for Socony lubrication is Certified Lubrication.

For twenty-five years That Good Gulf Gasoline has been an honest, high powered, clean, straight-run petroleum product. Now it is made better. Each year the high compression motor becomes more popular with makers of automobiles, bringing into requirement gasolines of Anti-Knock value and lower end point.

The new Good Gulf Gasoline meets these requirements in every respect. Has a 400° end point . . . vaporizes to the last drop, a high Anti-Knock quality . . . not a knock in a tank full.

Every motorist should know that a 400° end point gasoline vaporizes more quickly and completely than ordinary gasoline of 437° end point. This quick vaporization affords easier starting . . . gives more mileage . . . because every drop is converted into power.

That Good Gulf Gasoline contains no Anti-Knock fluid or chemicals of any kind . . . no dope. There is no extra cost . . . same price it has always been.
